EDUCATION

- **Chalmers University of Technology** Gothenburg, Sweden
BSc in Software Engineering (Informationsteknik) Aug. 2017 – Jun. 2020
 - Courses including: Data structures and algorithms, Databases, Human-computer interaction, Design and implementation of graphical interfaces, Computer communication, Object-oriented programming and design.
 - **Thesis title:** Collaboration Mechanics for Children in Game Environments
 - * Used Unity and four iPads to create a networked, multiplayer game, Project GitHub repository
- **Chalmers University of Technology** Gothenburg, Sweden
MSc in Software Engineering and Technology Aug. 2020 – Jun. 2022
 - Courses including: Requirements engineering, Information visualization, Software quality, Network security, Computer security, Cryptography, Agile development processes, Empirical software engineering.
 - **Thesis title:** Applying and Maintaining Security Assurance Cases in the Medical Domain: A Case Study at AstraZeneca

EXPERIENCE

- **AstraZeneca** Gothenburg, Sweden
Master Thesis Student January 2022 – June 2022
 - Investigated Security Assurance Case applicability in the medical domain
 - Investigated maintainability of Security Assurance Case in the medical domain

Technologies: draw.io, tikz (L^AT_EX)

Theory: Security Assurance Cases, Information visualization, Standard compliance, Risk management analysis
- **Chalmers University of Technology** Gothenburg, Sweden
Teaching Assistant March 2020 – June 2020
 - Teaching assistant in course DAT216 (Design and implementation of graphical interfaces).
 - Performed lab/exercise supervision and lab grading

Technologies: Java, XML, Scene Builder

Theory: UI/UX design, UI prototyping
- **AstraZeneca** Gothenburg, Sweden
Summer Worker June 2018 – July 2018
 - Visualized datasets from clinical studies performed world wide
 - Aggregated department focus group results

Technologies: Jupyter Notebook, Pandas, Python

Theory: Information visualization, Proof-of-concept prototyping

PROJECTS

- SonifiedZoom, using face tracking with Python to control Midi input to VCV Rack (digital instrument), project part of the Music Engineering tracks course at Chalmers
- Dedocahedron infinity LED controller, used an ESP32, Raspberry Pi and MQTT to control WS2812B led strips from an Android application made with Flutter and Dart.
- PCB macropad design using KiCAD, ordered PCBs from JLCPCB in China, assembled the finished product at home in Sweden

OTHER PROGRAMMING TOOLS

- **Programming languages:** Python, Java, C++, Dart
- **Game engines:** Unity, Unreal Engine.
- **App development frameworks:** Flutter.
- **Python:** Matplotlib, Pandas, Django.
